# 2002 Environments for Mentoring Grant Recipients

The grant proposals are first reviewed at the department and college levels. Following those reviews, a group of faculty representing various disciplines across campus gives a final review where they compare protocols to each other based on how well they incorporate the desired goals and elements of a mentored environment. The awards range in value according to the proposal and are given in January to be worked on throughout the calendar year. Final reports are received from the faculty the next year.

# 2002 Undergraduate Scholarship Recipients

This group is selected by a process resembling the faculty pursuit of external research funding. Students prepare proposals and select faculty mentors. A group of faculty and administrators carefully evaluate all proposals and select those deemed outstanding. The awards, \$1,000 scholarships, are given in January and a report on the work is due in December of the same year. These reports are tabulated as the Brigham Young University Journal of Undergraduate Research and Creative Activities, which is published on the Internet under the ORCA homepage (<http://orca.byu.edu>).

# 2002 University Honors Students

The following students graduated with University Honors. Requirements for graduating with honors include taking required Honors Courses, completing an Honors Portfolio and completing an Honor Thesis. Honors students work closely with their faculty advisors in all aspects of their honors education. The relationship is reminiscent of that between a graduate student and his/her faculty advisor. We congratulate these fine students and their faculty advisors on their accomplishment.
